

The *Large Area Display Price Tracker* provides monthly panel price updates for large-area applications including notebooks, LCD monitors, and LCD TVs. With six months of results and 12 months of forecasts, the report offers a useful overview of the large-area display market. It also includes detailed features such as size, resolution, BLU type, slim type, frame rate, and interface.

Subscribers can see the latest panel pricing trends in the report, including industry activities that influence the market. In addition, 12 months of panel price forecasts are provided based on the latest industry observations, supply/demand analysis, and shipment forecasts.

The report is delivered in both PowerPoint (analysis) and Excel (database) files.

Key Issues Addressed

Products Covered

- LCD TVs Panels
- LCD TVs Open Cells
- LCD Monitors Panels
- Notebook PC Panels

Technologies Covered

- a-Si TFT-LCD Panels

Lead Analyst

Yoonsung Chung – Senior Manager

Mr. Yoonsung Chung is a Senior Manager of Analysis & Research within the IHS Technology group.

He joined IHS in November 2014, when IHS acquired DisplaySearch, a leader in primary research and forecasting on the global display market. At DisplaySearch, he served as director of large-area displays & FPD materials analysis in the company's Korea office. He is a recognized display expert and has been invited to speak on large-area displays, especially on PDP technology, at many Korean FPD forums.

Prior to DisplaySearch, Mr. Chung spent 10 years on the R&D and marketing teams of Samsung SDI's CRT and PDP Division. There, he managed PDP product planning and technology marketing, led the FPD benchmarking team in the PDP Division and taught Samsung SDI's new employees about display history and technologies. Mr. Chung has a bachelor's degree from Kookmin University in Seoul, South Korea.
