The Display Glass Market Tracker is the industry standard for tracking LCD glass substrates, a material essential to TFT LCD production. The tracking includes capacity, shipments, new glass tank schedules, and volumes by location and supplier, the relationship between glass substrate suppliers and panel makers, supply/demand analysis, price, revenues, and new glass substrate product trends such as thinner glass and new glass substrate technologies.

Backed by a global team of analysts, this report covers supplier capacity, shipments, prices, demand forecasts, and much more including touch cover glass.

This report is published as an excel data file and PowerPoint.

**Key Issues Addressed**

- Discover the latest technology and supply chain information as well as pricing and forecasts for the entire range of TFT LCD glass.
- Understand improvements in display performance derived from TFT LCD glass.
- Gain a single source of glass information for supply/demand, supplier performance and capacity, price trends, revenue, and market share.

**Applicable To**

Investment Community
- Fund managers / investors / analysts with interest in display companies
- LCD panel suppliers
- Materials/components Procurement division
- Panel development division
- Glass suppliers
- Brand manufacturers/OEMs/ODMs
- LCD and materials/components procurement division
Table of Contents

Executive summary
Aluminosilicate cover glass
– Aluminosilicate glass tank list
– Cover glass demand forecast
Basic technology
Supplier capacity
– Tank basis
– Substrate area basis
TFT LCD fab utilization
By generation
By maker
Supplier shipments
Substrate prices by size
Substrate demand forecast
Substrate sales revenue
Supplier market share
Supply chain
Supply/demand
Technology
Supplier operating profit margin
