

IHS MARKIT TECHNOLOGY INTELLIGENCE SERVICE

Smartphone Display

COVERAGE

- 100% coverage of smartphone display makers
- Forecasts and historical data
- Shipments
- Average Selling Prices
- Revenues
- Trends and analysis
- Smartphone display cost coverage
- Supply chain relationship coverage

Market Trackers

Historical and forecasted, delivered in Excel Tables including revenues, units, ASPs, market shares and products.

Presentations

Multiple presentations on core issues in display industry.

Reports

Research addressing key focus areas, market size and industry-level analysis.

Analyst Insights

Analysis on trends and developments throughout the year.

Analyst Access

For prompt responses to urgent and unique questions.

Subscribers of this service will receive:

Smartphone Display Market Tracker – Quarterly research on smartphone display shipments, technology developments, features, trends and smartphone market dynamics. It also provides quarterly and annual forecasts of mobile phone display shipments. Delivered in XLS and PPT, Information about new mobile phone display products and end-market events (such as new models using new display features) is included to keep subscribers up-to-date on changing technologies and markets.

Smartphone Display Supply Chain Tracker – Quarterly tracker focused on the relationships between smartphone display makers, and device/application manufacturers.

Smartphone Display Shipment & Price Tracker – This monthly updated tracker, delivered in XLS and PPT, provides the latest display shipment numbers, surveyed from 100% of smartphone display manufacturers. The shipment portion of the data includes monthly shipments of major display makers, including TFT-LCD and AMOLED suppliers. Monthly data is provided for each display maker's panel shipment total numbers for feature phone, and shipment units for smartphone by display size, resolution, and technology. The price portion of the data includes display pricing for selected sizes and resolution.

Smartphone Display Cost Report – Quarterly updated report that delivers smartphone display cost structure and profitability of mainstream display sizes with detailed parameters.
