AMOLED Encapsulation Materials Report

Kihyun Kim, Richard Son, Senior analyst

With the increasing penetration rate of OLED panels for TV and smartphone by display set makers, demand for OLED encapsulation materials is forecast to grow steadily.

This report can be a great help in understanding the OLED encapsulation technology and market. It analyzes the OLED encapsulation market by Metal, Glass, Thin film, and Hybrid.

The metal encapsulation market for OLED TV panels is forecast to grow at strong compound annual growth rates (CAGRs) from 2015 to 2021, along with the thin film encapsulation (TFE) market for flexible smartphones.

Key Issues Addressed
- What is the major OLED encapsulation technology in the display industry?
- Who are the major suppliers of OLED encapsulation components?
- How will the market be changed by OLED panel industry trends in the near future?

Applicable To
- Strategy Planning
  - OLED Supply Chains
- Display Application Set Makers
  - OEM, ODM, EMS
  - Mobile Operators
- Financial Investors
  - Fund Managers & Investor Companies
  - Analysts with interest in Display Industries
from electronic threats. Businesses, and service providers companies that protect consumers, covering the tools, technologies, and cybersecurity technology companies research services to more than 100 provide a wide range of market and content security technologies. We year history covering core network services to more than 100 provide a wide range of market and content security technologies. We year history covering core network services to more than 100 provide a wide range of market and content security technologies. We year history covering core network.

Our coverage of cybersecurity technology is built on the foundation of IHS Inc.’s deep background in technology, security, and defense research and the recent acquisition of Infonetics Research, who has a 20 year history covering core network and content security technologies. We provide a wide range of market research services to more than 100 cybersecurity technology companies, covering the tools, technologies, and companies that protect consumers, businesses, and service providers from electronic threats.

About IHS Technology
Cybersecurity Coverage
Our coverage of cybersecurity technology is built on the foundation of IHS Inc.’s deep background in technology, security, and defense research and the recent acquisition of Infonetics Research, who has a 20 year history covering core network and content security technologies. We provide a wide range of market research services to more than 100 cybersecurity technology companies, covering the tools, technologies, and companies that protect consumers, businesses, and service providers from electronic threats.

Table of Contents
Executive summary
II. OLED introduction
1. OLED definition and classification
2. AMOLED structure and working principle
3. OLED display technology analysis
   3.1. Color patterning
   3.2. Emitting layer
   3.3. Foldable AMOLED
   3.4. Transparent AMOLED
III. OLED industry Status by region
1. Korean companies
   1.1. Samsung Display
   1.2. LG Display
2. Chinese companies
   2.1. BOE
   2.2. Tianma Microelectronics
   2.3. Ever Display
   2.4. Govisionox
2.5. Truly
2.6. Others
3. Japanese companies
   3.1 Japan Display (JDI)
   3.2 Sakai Display Products (SDP)
   3.3 JOLED
4. Taiwanese companies
   4.1. AU Optornics
   4.2. Innolux Display
IV. OLED encapsulation technology and cost analysis
1. OLED encapsulation introduction
   1.1. OLED encapsulation
   1.2. Key requirements for encapsulation
2. OLED encapsulation classification
   2.1. Encapsulation classification
   3. OLED encapsulation technology
   3.1. OLED encapsulation technology trend
   3.2. Comparison of OLED encapsulation technologies
   3.3. Glass lid encapsulation
   3.4. Glass frit encapsulation
   3.5. Thin film encapsulation
   3.6. Solid phase encapsulation
V. OLED market and supply and demand forecast
1. Long-term annual shipment forecast
2. Long-term annual revenue forecast
3. Long-term annual area forecast
4. AMOLED panel Gantt chart
5. Ratio of AMOLED demand to capacity
6. AMOLED demand and capacity growth rates
VII. OLED material demand forecast
1. FMM RGB type demand forecast: H2 2014–H1 202065
2. WOLED type demand forecast: H2 2014–H1 202066
3. Global material demand forecast: H2 2014–H1 202067
VII. OLED encapsulation market forecast
1. Overall (value)70
2. By technology (value)71
3. By application (value)72
4. Overall (area)73
5. By technology (area)74
6. By application (area)75
7. Overall (unit)76
