

IHS MARKIT TECHNOLOGY INTELLIGENCE SERVICE

Ultrasound

Advance your competitive position by leveraging uniquely comprehensive data and insights on Ultrasound technology and market dynamics.

Real time access to a continuous flow of research across geographies, topics and application areas:

COVERAGE

- 5-year forecast
- 30+ countries
- Low, mid, high end, premium, and handheld compact products
- Low, mid, high end and premium cart products
- 20 applications
- Market Shares
- Shipments
- Revenues
- ASPs

Analyst Insights

Client-exclusive commentary on developments throughout the year.

Databases

Collection of data tracking contents such as product sales, product shipments and market shares.

Reports

Topical reports addressing key focus areas, market size and industry-level analysis.

Analyst Access

For prompt responses to urgent and unique questions, including webinar presentations.

Clients of this service will receive:

Clinical Application Database – A deep-dive application database contains analysis of the global ultrasound market split by country, product and clinical application. 5-year forecasts are provided for each country. Market share is provided for each application at a sub-regional level.

Ultrasound Equipment Database - Detailed revenue, unit shipment and ASP 5-year forecasts for 9 ultrasound product types in over 30 countries. Market share is provided at a sub-regional level for all product types.

Reports – Three topline reports will be delivered throughout the year. This includes a Chinese ultrasound market report, a medical imaging market analysis, and a mid-year global market update.

Data Visualization Tool – New in 2017. Provides powerful visualizations to enhance understanding of the market and to inform business decisions.

Subscription fee discounts available to companies participating in the research. Contact **Holley Lewis** (holley.lewis@ihsmarkit.com) for more information.

Database Coverage, delivered in Excel and PowerBI

Annual data with bi-annual forecast updates including in-depth analysis of key industry metrics.
